# EXPERTISE AND SERVICE

Galaxy is founded on delivering both expertise and service in every product sector. Fire Protection is no exception, and our branches have specialist teams of experts with many years of experience within the industry.

The word expert is often misused however here at Galaxy, it means Industry Experience, Technical Awareness, Competence and Integrity. Such is the expertise of our Team, we welcome the opportunity to support your vision.

Focused on the Passive Fire Protection market for applications including service penetrations, rainscreen, shaftwall, compartmentation, our offering includes all aspects of tested and compliant Fire Protection products and systems such as Barriers, Boards, Coated Batts, Collars, Sealants, Sleeves, Wraps and more.

FIREFLY™ is a pioneering UK specialist manufacturer of flexible fire barriers. Lightweight and easy to install, products are fully supported with independent certification, covering a variety of substrates and penetrations. FIREFLY™ flexible fire barriers are made with combinations of woven and nonwoven glass substrates and aluminium foils, including solutions specifically certified for use on timber, making them ideal in loft spaces and roof voids with restricted access and working space.

#### **BENEFITS OF FIREFLY™**

- Great technical support and training by manufacturer
- Superior fire resistance and integrity
- Ideal for loft spaces and roof voids

#### **LEADING THE WAY**

FIREFLY™ has amassed a wealth of practical wisdom in the successful research, development, manufacture and distribution of high performance specialist materials and products for a diverse range of industrial requirements.

# Promat

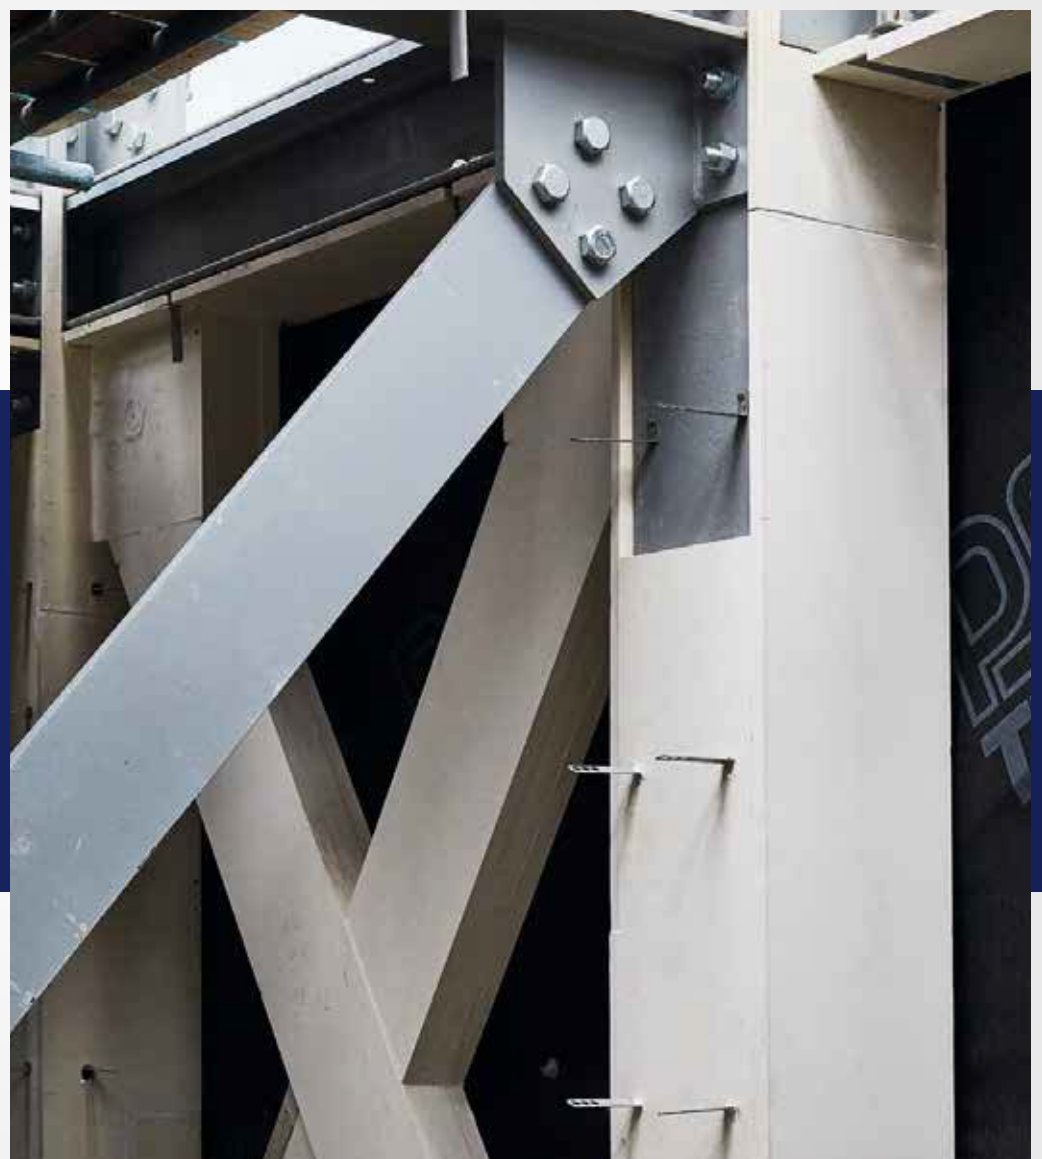

Promat is the expert and worldwide reference in passive fire protection and high-performance insulation for the construction sector and a large number of industrial markets. They offer sustainable solutions that protect lives and assets, enhance comfort, optimise process efficiency, minimise the loss of space and energy and help reduce CO2 emissions. All their solutions and systems are backed by more than 60 years of experience and know-how. For each project we can rely on our extended, proven and certified range of fire protection products.

## WHY CHOOSE PROMAT

- Non-combustible boards
- Fully tested and third-party certified
- Tested as part of a whole system

## RANGE OF FIRE PROTECTION BOARDS

We stock a wide range of Promat fire protection boards at Galaxy including, PROMATECT®-XW, SUPALUX®, TLFR Board®, VERMICULUX®-S, PROMATECT®-L500 and more. These boards offer superior fire resistance, great durability, easy installation and resistance to humidity and impact.

ROCKWOOL® FIREPRO® offers a comprehensive range of passive fire protection products that provide superior firestopping and fire resistance capabilities, ensuring a secure environment for occupants during a fire. Passive fire protection systems are crucial for ensuring the safety of building occupants, despite their inconspicuous nature. By being seamlessly integrated into the building structure, these systems play a vital role in protecting the building's structural integrity and limiting the spread of fire and smoke within compartments.

### MARKET LEADING MANUFACTURER

- Fire stopping solutions
- Sustainable materials
- Comprehensive products
- Innovation at the core

### WHY ROCKWOOL

ROCKWOOL UK's commitment to innovation, sustainability, and customer service has earned them a strong reputation among architects, contractors, and developers, making them a go-to brand for fire protection solutions.

# MULCOL

## INTERNATIONAL

Mulcol International is a modern manufacturer of innovative passive fire stopping products. Their fundamental objective is to manufacture and test pragmatic, effective and user-friendly products and solutions that comply with the applicable European standards. Mulcol International continuously researches, develops and tests practical solutions and products in order to offer our customers the best passive fire stopping products. Their aim is to develop innovative fire stopping products and solutions that are relevant and easy to use.

### FIRE PROTECTION PRODUCTS

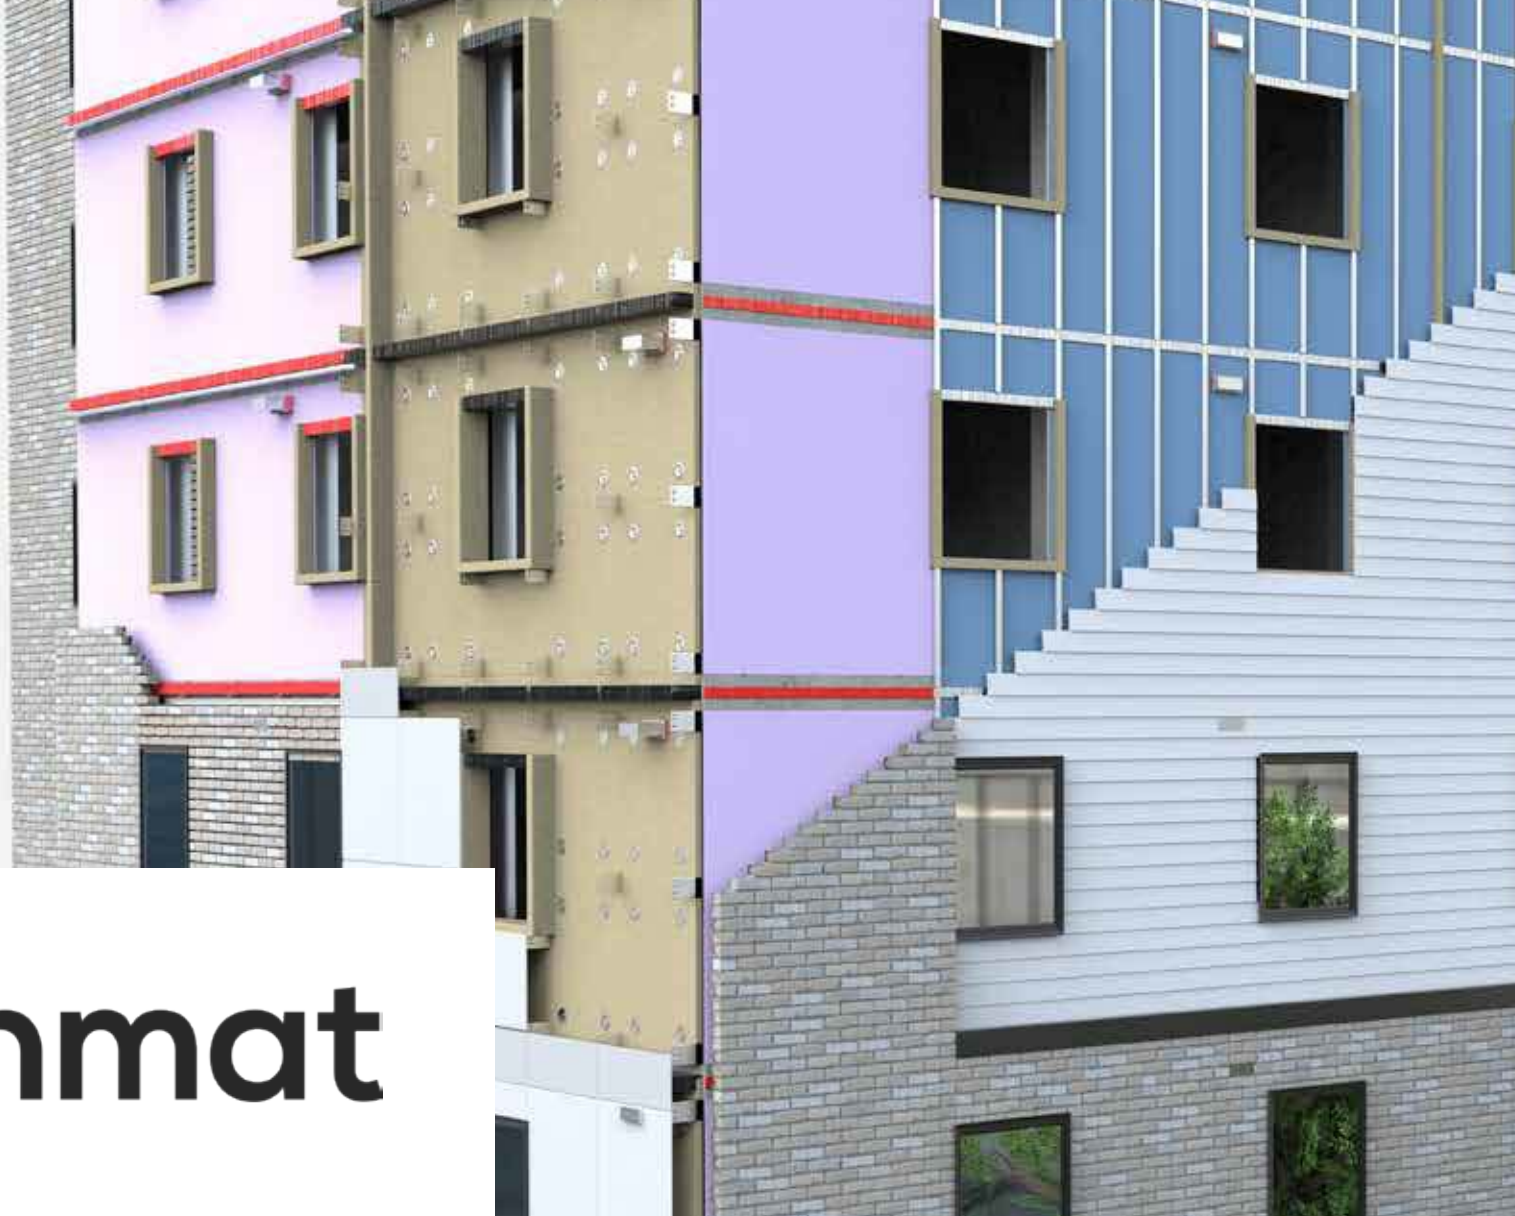

- Multicollar Slim
- Multiwrap
- Multimastic SP
- Multifoam 2K
- Multidisc
- Multisealant A

### EXCELLENT (IN) QUALITY

Mulcol International has only one goal and that is to offer products of an excellent quality, designed for our safety. We want to be market leaders in manufacturing and supplying the best performing passive fire protection products.

Tenmat is a leading UK manufacturer of passive fire protection solutions and fire stopping products. They specialise in providing a wide range of fully tested passive fire protection products, each with performance characteristics suitable for different applications. Tenmat is dedicated to providing technically advanced passive fire protection products with outstanding performance and proven effectiveness. Tenmat's position as a top-tier manufacturer is built upon their ability to problem solve through ingenuity and development of innovative materials.

#### TENMAT FIRE PROTECTION PRODUCTS

- Open State Cavity Barriers
- Full Fill Cavity Barriers
- Vent Duct Fire Sleeves
- Pipe Fire Sleeves
- Socket Box Inserts
- Downlight Fire Hoods

#### OUR GOAL

Tenmat strive for outstanding service, unsurpassed quality and a commitment to excellence. Our goal is to provide a complete service, from material selection to component delivery, while developing long-term working relationships with our clients.

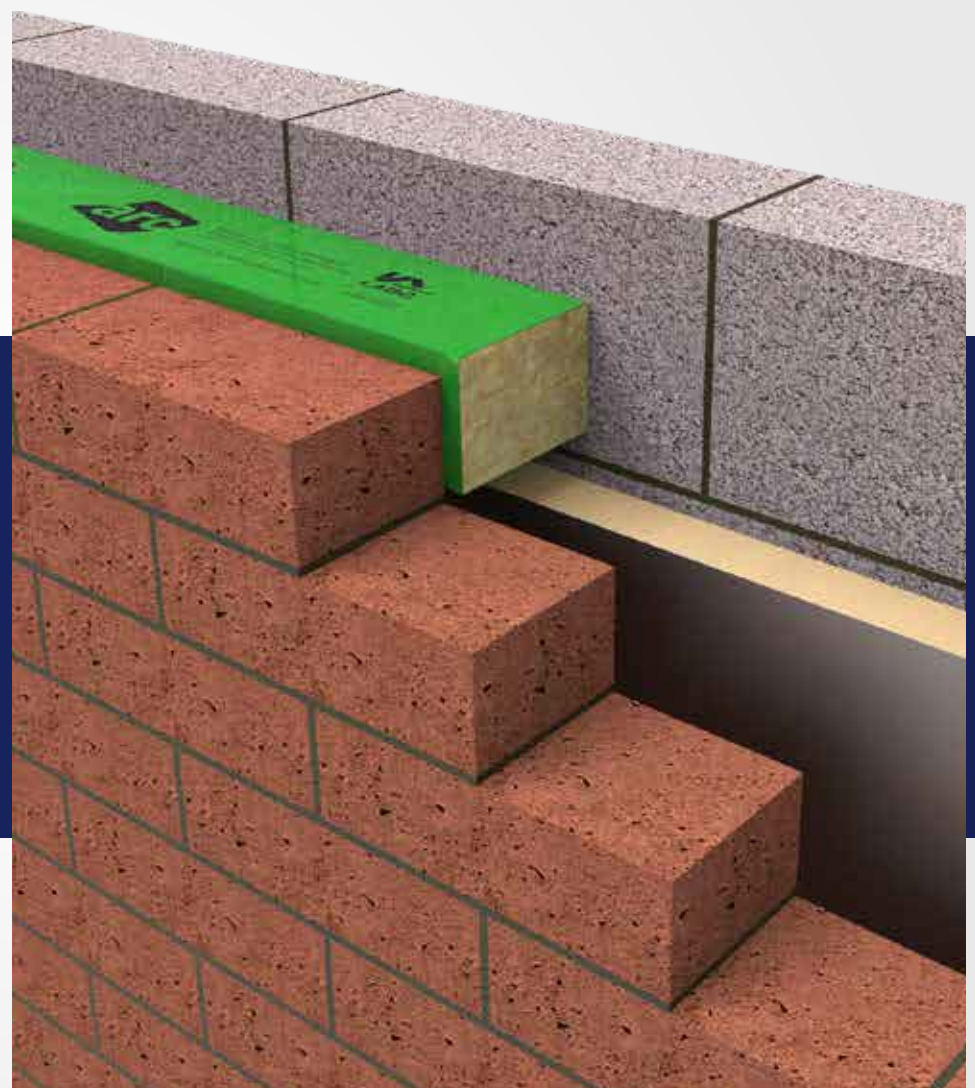

ARC's range of trusted third-party certificated cavity barriers and cavity closers are available to suit requirements in both low-rise and high-rise projects. As the UK's leading manufacturer of cavity barriers, ARC products are specified by national housebuilders and major developers. With a wealth of technical experience, it ensures that the best solution can be identified from our comprehensive range of products.

## INTERIOR FIT OUTS

- 3-5 working day lead time including bespoke sizes
- Third-party certificated products
- Trusted by major developers
- Complete solutions
- Technical advice
- Unique and innovative products

## AWARD-WINNING MANUFACTURER OF CAVITY BARRIERS AND CAVITY CLOSERS

With IFC third-party certification, ISO 9001 Quality Management System, ISO 14001 Environmental Management System and ISO 45001 Occupational Health & Safety Management System, you can be assured that ARC products are manufactured to the highest of standards.

**FIRE STOPPING & COMPARTMENTATION SYSTEMS**

FSi manufacture a range of fire stopping and cavity barrier products and strive to leave no gaps; whether in our products which are designed to physically leave no gaps in the event of a fire, to slow the passage of flame and smoke, or across our product development and service offering. With over 20 years' experience in fire protection, plus third party accreditation across our range, and an innovative programme of product testing, FSi are renowned for our quality products, customer service and expert technical support.

### INTERIOR FIT OUTS

- Wide range of fire stopping solutions
- Open & closed state cavity barriers
- Third party approved products
- Technical experts available when you need us
- Easy access to technical information & certification

### TECHNICAL EXPERTISE AT YOUR FINGERTIPS

FSi are the largest UK manufacturer of fire stopping products and we pride ourselves on our technical expertise, support, and service; so you can rest assured that, with FSi, you're in expert hands.

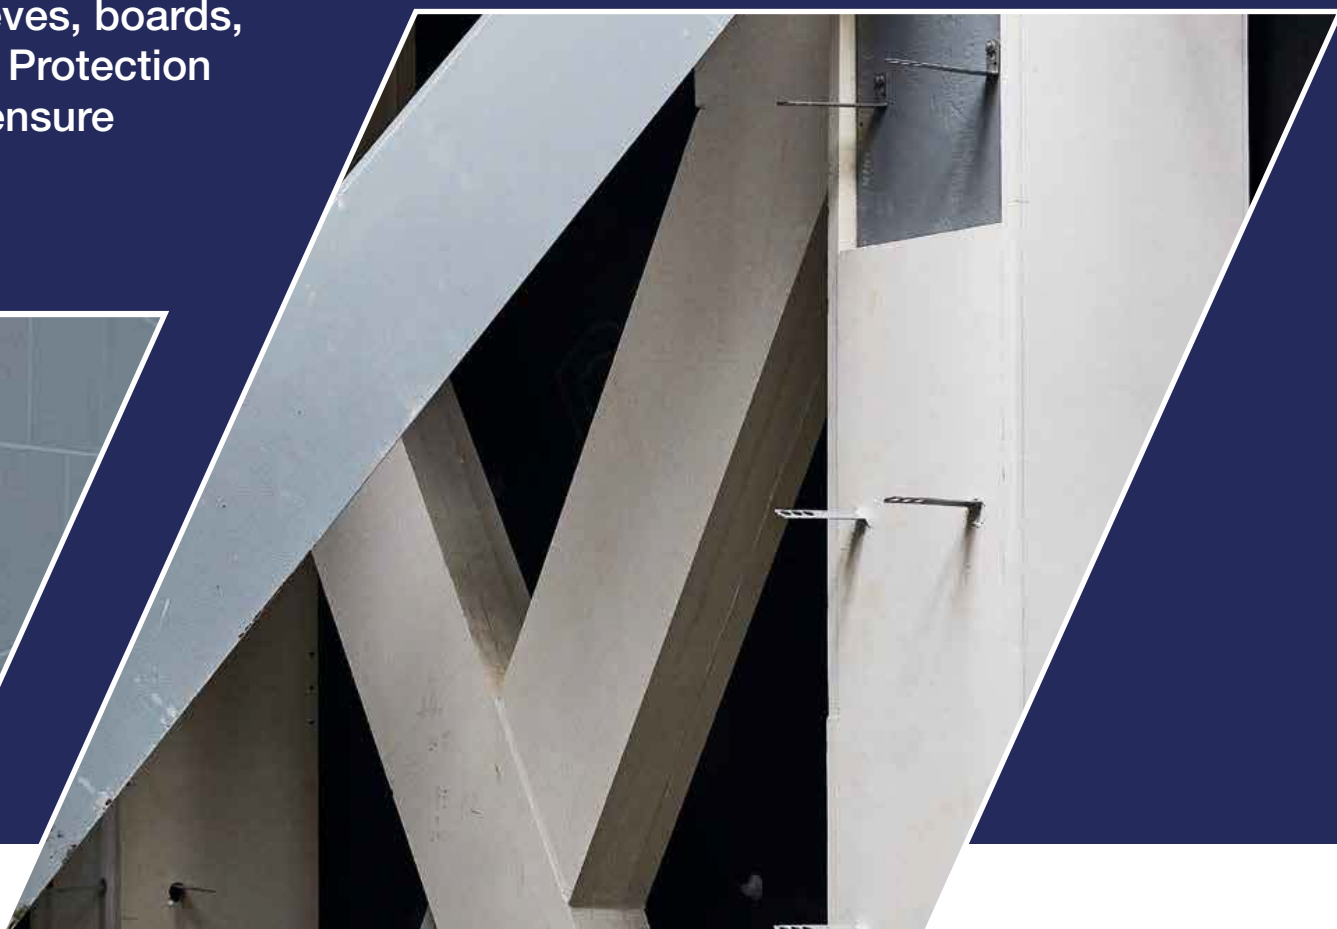

# FIRE PROTECTION SOLUTIONS

We work with leading manufacturers to provide a wide range of products and solutions to meet building regulations and performance standards.

You will find our complete range will cater to your every need. From collars, sleeves, boards, sealants, wraps and more, our Fire Protection team have years of experience to ensure your project requirements are met.

With 14 branches nationwide and our consistent expansion, we are able to provide our products and services across the UK.

Being FORS Gold accredited, our dedicated fleet of vehicles and drivers have years of experience to ensure your materials arrive on site, on time, safely and where you need it!
